

Craft, Technical and Production Bursaries for Feature Film Freelancers

2018-19 Guidelines

Film Craft, Technical & Production Bursaries from the Film Skills Fund are training grants of up to £800 for film professionals currently working in eligible craft, technical and production departments in the UK film industry to support skills training.

Applications for bursaries which contribute towards the cost of training in key skills areas will be prioritised. These priority skills categories are identified in these guidelines.

PLEASE NOTE: This is a rolling bursary scheme, to which you can submit an application to at any time. The deadline for applications is 31 March 2019. However, these funds are in high demand and will close when all of the funds have been allocated, which may be before this date. There is a high demand for bursaries and inevitably there is only a finite amount of funding to go around. Your application will be assessed against the criteria set out in these guidelines on a first come, first served basis. Read these guidelines carefully and note the **key point summary** boxes before applying.
