

## Ziggy Gray: Locations trainee

My name is Ziggy Gray, I am a location trainee.

So my first experience of getting into the industry, I was actually travelling and a location manager came in and they were planning on doing some filming locally.

I actually asked if I could just go along and help. She was like yeah, come along.

She hired me for three weeks. I fell in love with it.

Most people don't know it exists. You think of hair and make-up, camera department, special effects, but locations you'd never seem to think it was there.

I'm so happy I found my department.
