

Lewis Kelly: Lighting trainee

My name is Lewis Kelly.

I started off on construction sites, I never thought I would have been able to make it into the film industry.

One of my uncle's friends told me of a vacancy running at Pinewood and I applied for it and luckily I got it.

A lot of my family have revolved around the building industry and I'm tryna drag them into the film game, I'm telling them how great it is.

They think that it's quite hard to get into it, but if you work hard you can really go far.
