

## Shani Vizma: VFX assistant coordinator

My name is Shani Vizma. I am a visual effects assistant coordinator.

Visual effects is really diverse. There is something for everyone.

If you're quite a quiet person, be a visual effects artist. If you're someone that loves holding the room, then you can be a manager.

I really love visual effects. I've found a home there.

We're geeky, we're nerdy. I like that, I'm much more comfortable around the geeks and the nerds.

There're women at the top which are really inspiring. They're real powerhouse woman.

That's where I'd like to get to.

Find your future. ScreenSkills.
