

The learning objective

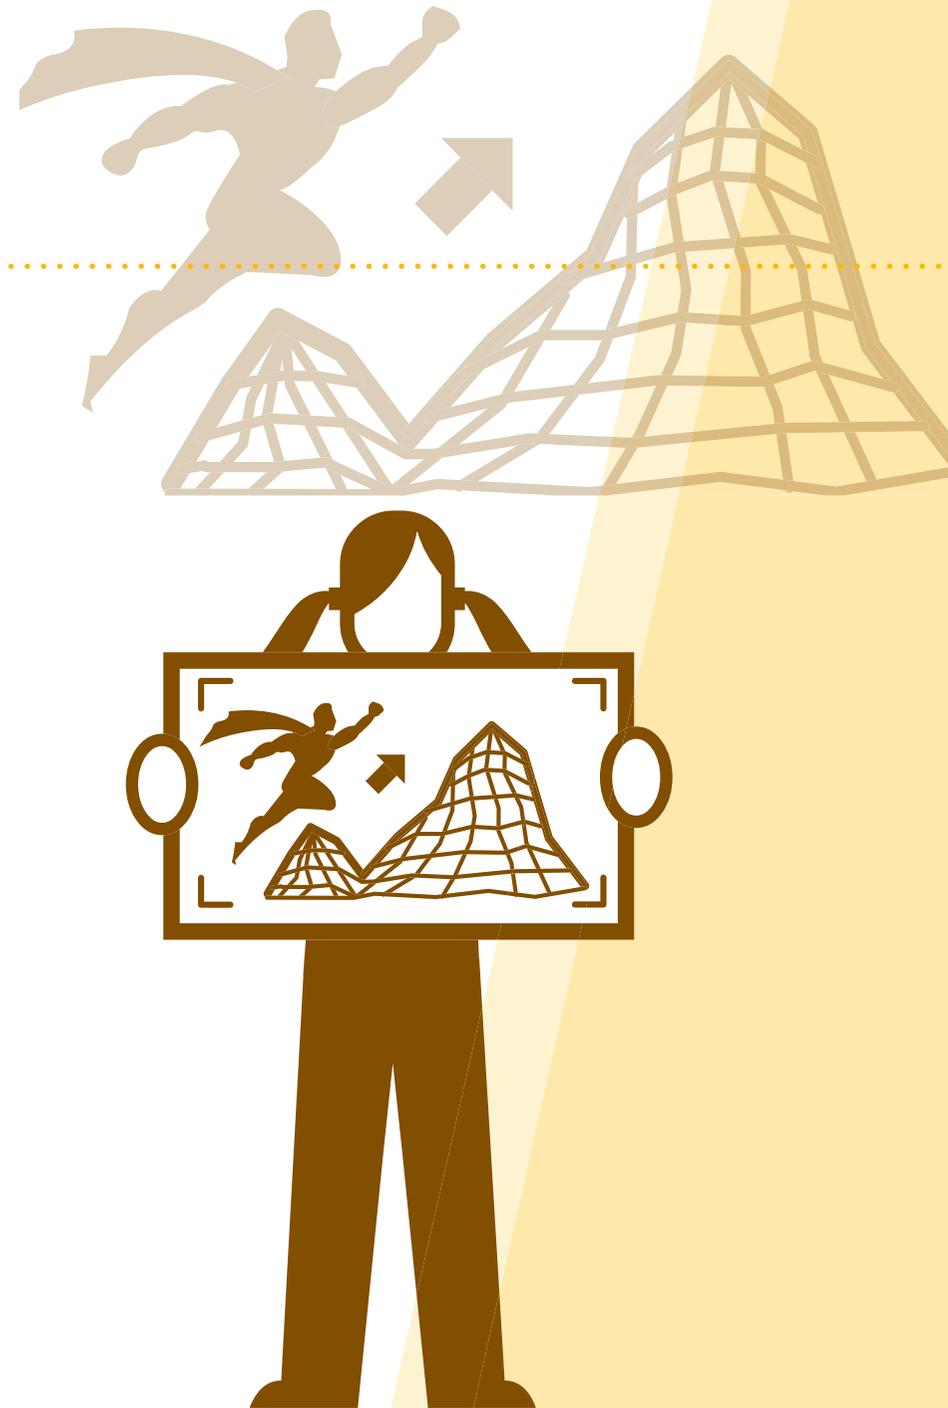

To understand the wide variety of roles and jobs available in the VFX industry

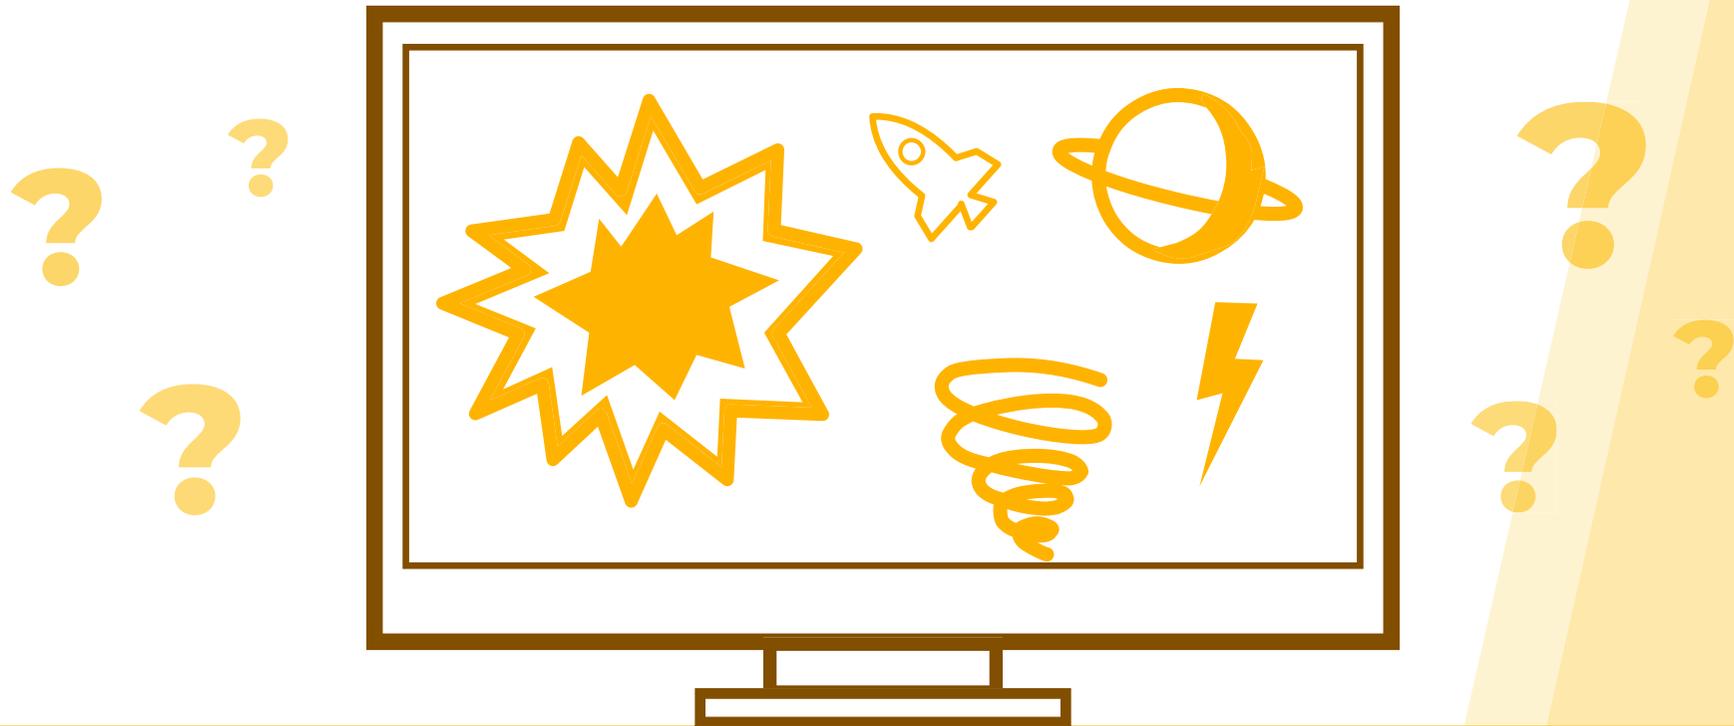

What is VFX?

VFX is the art of combining computer-generated (CG) sequences with live-action footage to create scenes that can't be filmed in real life.

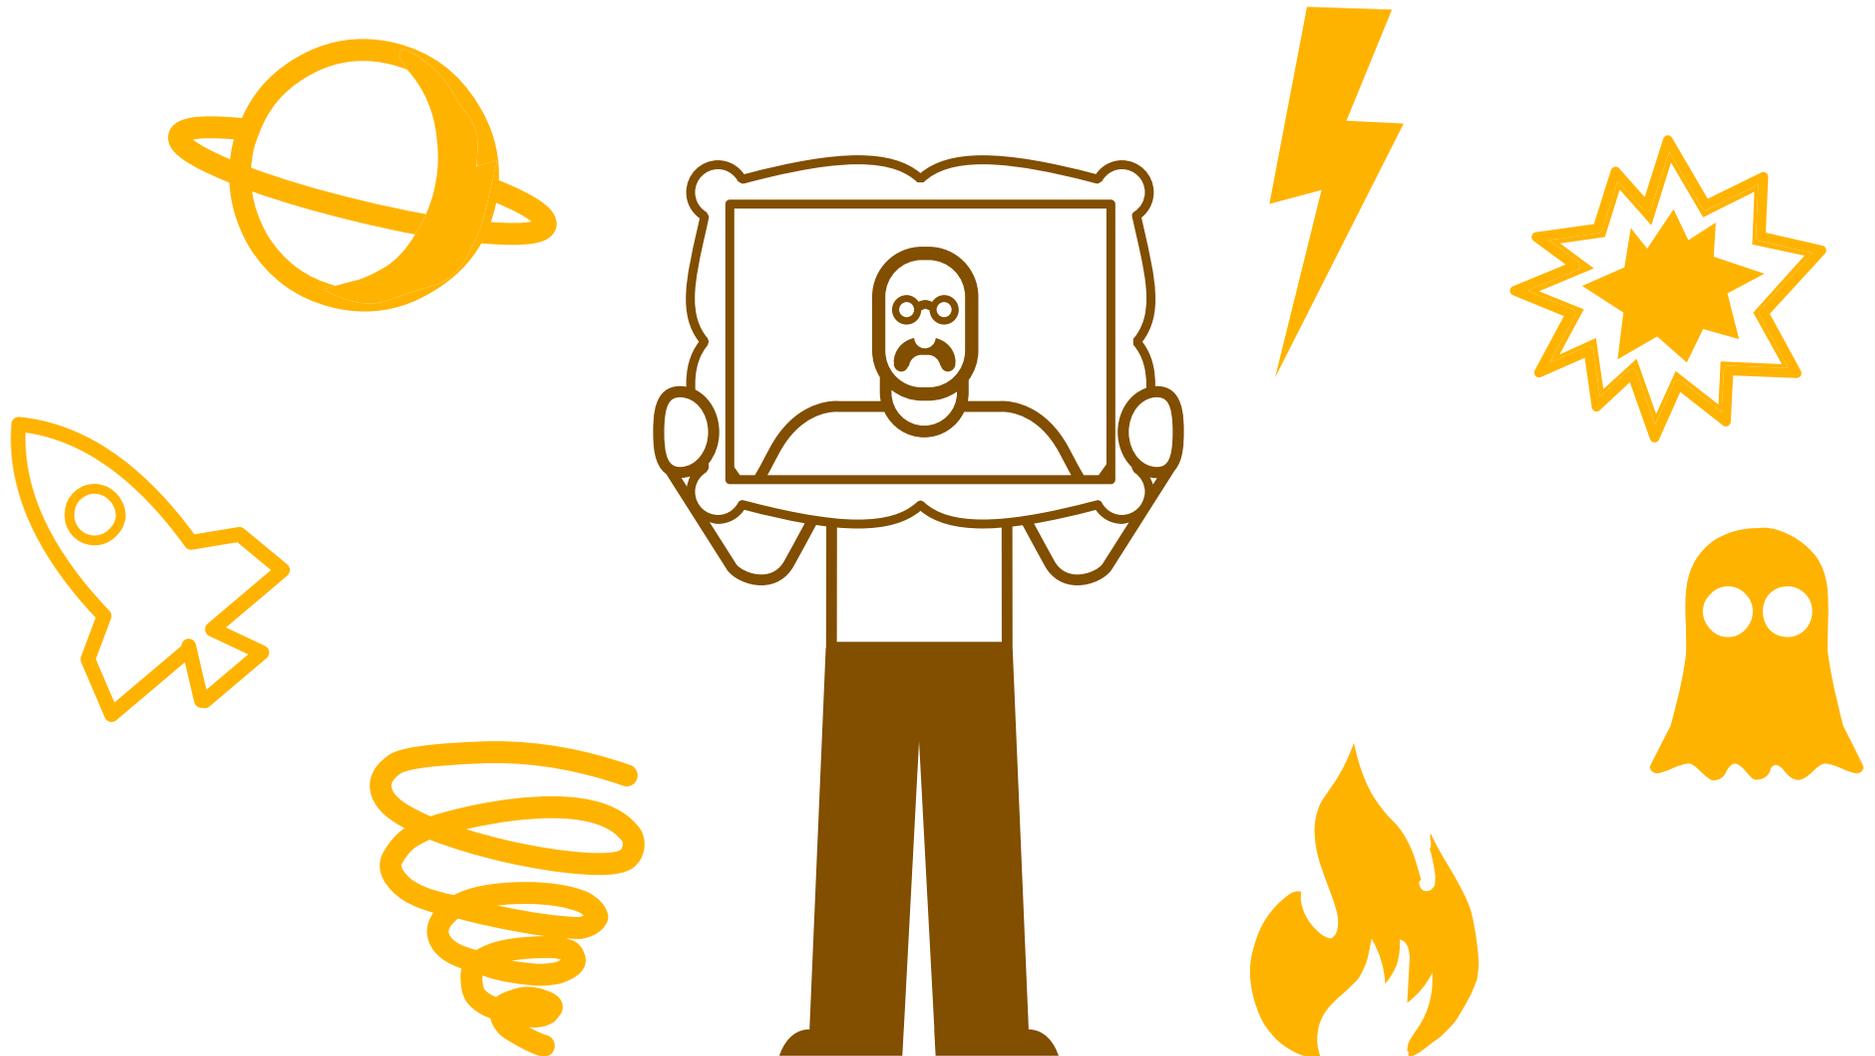

When a movie shows a hero jumping off the ground and flying into the air, it's created using VFX

What films or TV programmes can you think of that use VFX?

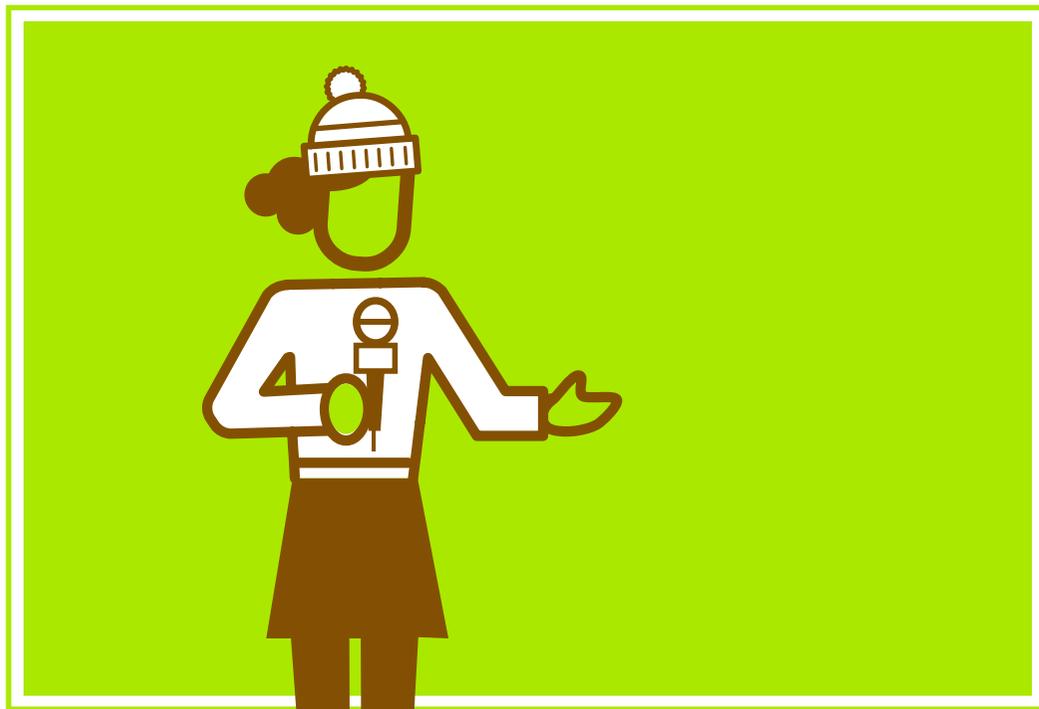

Learn how VFX are made

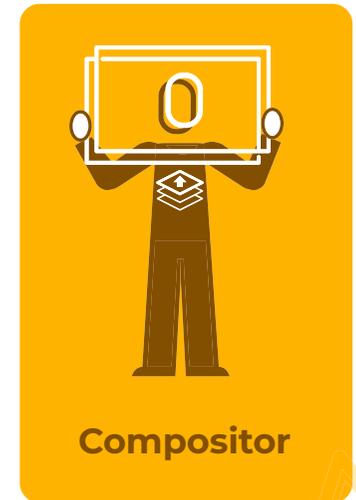

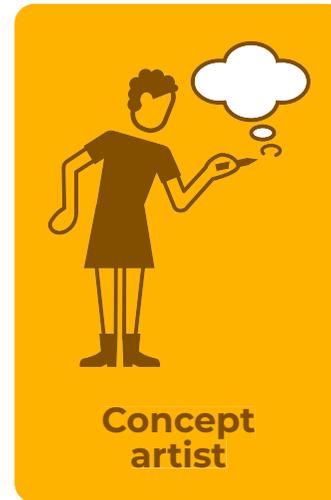

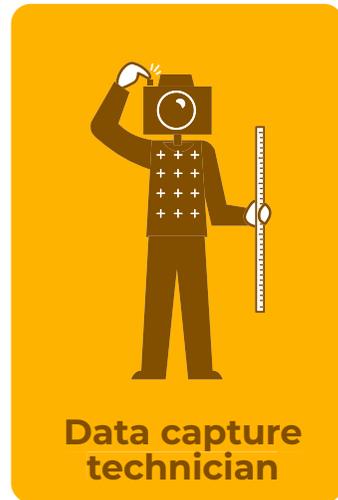

What is green screen?

Learn how to use green screen technology

Job roles in VFX

Decide on your roles

Compositor

VFX Producer

**Environment
artist**

**Reporter or
presenter**

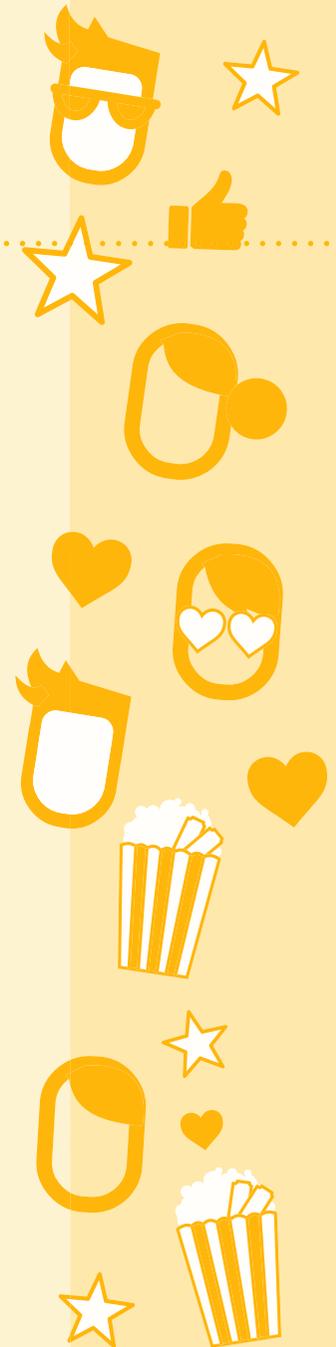

Sound editor

**Camera
operator**

Show your film

Evaluation

- How do you feel about your project?
- Do you understand more about the variety of job roles in VFX?
- Did anything unexpected happen?
- Are there any improvements you could make?

Plenary

Learning objective: *To understand the wide variety of roles and jobs available in the VFX industry*

- **How important was your role to the final project ?**
- **Did you enjoy your role?**
- **Was there a role you would rather have been doing and why?**
- **Were there any roles missing?
(refer back to sticky notes)**
- **How effective was your team?**
